

# Fast installation guide for the SAGEM F@st™ 908 / 948

- Contents of pack**
- ADSL filters (depending on model),
  - 1 ADSL SAGEM F@st™ 908 / 948 modem,
  - 1 mains connector,
  - 1 telephone lead,
  - 1 Ethernet lead,
  - 1 USB lead,
  - 1 installation CD-ROM.

The SAGEM F@st™ 908 / 948 modem has an Ethernet interface and a USB interface for connection to your computer. You can use either one, depending on the interface available on your computer.

☞ You have opted to use the Ethernet interface:

**You MUST connect an ADSL filter to every socket used by a telephone, a DECT, an answering machine or a Fax.**

<p><b>3 Power up your modem</b></p> <ul style="list-style-type: none"><li>➤ Connect the mains cable to the PWR socket on the back of your modem.</li><li>➤ Then connect the mains connector to your nearest mains socket.</li></ul> <p>The <b>PWR</b> light on the modem lights up, and you can go on to the next step.</p>	
<p><b>4 Connect your modem to your telephone line using the line lead</b></p> <p>Once the modem is connected to the telephone line, ADSL synchronisation takes place automatically. When the ADSL light is on <b>constantly</b>, you can go on to the next step.</p>	
<p><b>5 Connect your modem to your computer's Ethernet card using the Ethernet cable</b></p> <p>The <b>Ethernet</b> detection lights on your modem and Ethernet card come on and you can go on to the next step.</p>	
<p><b>6 Connect to the Internet</b></p> <ul style="list-style-type: none"><li>➤ After re-booting your computer, click on the Connection button in the dialogue box shown opposite.</li><li>➤ Enter your user name and password (supplied by your IAP).</li></ul>	

**You now have broadband Internet access  
using the browser of your choice.**

 You have opted to use the USB interface:

**You MUST connect an ADSL filter to every socket used by a telephone, a DECT, an answering machine or a Fax.**

<p><b>2</b> <i>Run the installation CD-ROM</i></p> <ul style="list-style-type: none"><li>➤ Place the modem CD-ROM in the drive on your computer.</li><li>➤ Select the installation language.</li><li>➤ Click on the <b>USB</b> connector in the screen opposite.</li><li>➤ Select the country where you live (depending on model).</li><li>➤ Select your Internet access provider from the list.</li></ul> <p>Once installation has been completed, you can go on to the next step.</p>
